

Figure 13.1. Competitor-ad evaluation pipeline

FIGURE 13.1

The inspectable AI evaluation system

Quality is produced across identity, evidence, analysis, ranking, synthesis, and user trust.

01 DISCOVER

User question

Candidate identity search

02 COLLECT

Entity resolution

Ad snapshot + provenance

03 INTERPRET

Multimodal analysis

Question-aware ranking

04 EARN TRUST

Strategic synthesis

Inline evidence + user decision

The final answer is only as trustworthy as the evidence path behind it.

Quality is produced across identity, evidence, analysis, ranking, synthesis, and user trust.
