The inspectable AI evaluation system

Quality is produced across identity, evidence, analysis, ranking, synthesis, and user trust.

01 DISCOVER

02 COLLECT

03 INTERPRET

04 EARN TRUST

The final answer is only as trustworthy as the evidence path behind it.

Quality is produced across identity, evidence, analysis, ranking, final interpretation, and user trust. F13.1

Final-answer quality depends on identity, evidence, analysis, ranking, final interpretation, and UI trust—not only on the generation model.
